JOB DESCRIPTION

This is a fulltime position. Duties will include but are not limited to:

- Client, program, & project management, strategizing & implementation.
- Supervision and mentorship of environmental consultants.
- Field and office components of Phase 1, 2 & 3 ESAs, reclamation, remediation, DSAs/RCA's relating to wellsites, pipelines & renewables.
- Environmental assessments and monitoring on various energy projects.
- Data analysis, laboratory analysis selection, report writing, and review.
- Project management, strategizing, and implementation.
- Contractor selection, coordination, and supervision on various projects.
- Manage budgets, cost estimates, and projects.
- Daily cost tracking, daily updates, and timesheet entry.
- Assist with the ongoing development of our HSE program.
- Assist business development, marketing, and new opportunities.

QUALIFICATIONS

- Bachelor's Degree or Diploma in Environmental Science, Reclamation, or similar discipline. AIA and or SIA Member (preferred but not necessary).
- Strong soil, vegetation, and landscape classification skills.
- Knowledge of the AER Phased site closure process and OneStop.
- Experience completing or knowledge of field and office components related to Phase 1, 2 & 3 ESAs, DSAs, and RCA's.
- Experience with wellsite and pipeline reclamation and assessment.
- Knowledge and experience with the 2010 Reclamation Criteria and the Tier 1 and Tier 2 Remediation Guidelines would be considered an asset.
- Experience with contractor coordination and supervision.
- Strong willingness to learn, safety conscious, and clear communicator.
- A positive and optimistic attitude along with a very high attention to detail.
- Ability or willingness to learn how to drive a pick-up truck, haul a utility trailer, and operate a UTV/ATV/ARGO.
- Valid Drivers License and good physical health.
- Minimum 18 years of age, valid Drivers License for at least 5 years, clear criminal record, clean drivers abstract, and own means of transportation.

WORKING CONDITIONS

- This position is primarily field based with office components (approx. 50/50). Travel and staying overnight for multiple days is required.
- This is a safety conscious position. Therefore, this position is subject to pre-employment drug and alcohol testing.
